+ Profile

Full-Stack Web Developer with 5 months of experience, skilled in Javascript, TypeScript, React.js, Node.js, and others technologies.

I would like to apply my skills and experience in Full-Stack Web Development to a company where I can grow and develop professionally.

+ Professional experience

 2022 – PRESENT  BOGOTÁ D.C., COLOMBIA
Full-Stack Web Developer
Inmobiliaria Villarraga E Hijos

- Successfully developed and implemented a custom API for efficient database management.
- Demonstrated expertise in designing and creating a responsive client-side user interface.
- Devised and executed the creation of an intranet to cater to the internal needs of the organization.
- Oversaw the complete planning, design, and development of a highly functional web application for the company.

+ Training

 2023 – 2023
Compilation of JavaScript Applications with TypeScript
Microsoft

- Completed a comprehensive training program on TypeScript.
- Acquired in-depth knowledge of TypeScript's design principles and its role in developing large-scale applications.
- Developed proficiency in using TypeScript's optional typing system and associated tools for building industry-level JavaScript applications.

+ Training

 2023 – 2023
Professional TypeScript Course
códigofacilito

- Learned TypeScript through online courses and practice on my own.
- Demonstrated strong problem-solving skills and attention to detail by creating a fully functional web application using TypeScript.

Professional React Course
códigofacilito

- I learned React through online courses including video lessons and hands-on practice.
- Throughout the course, I acquired strong skills in web application development using React, understanding the fundamentals of components, state, props, and lifecycle management.
- I demonstrated my ability to create interactive and dynamic web applications by implementing practical projects during the course
